PROJECTS

INDIA MART CLONE

- A well known e-commerce web app clone. It manufactures and markets a range of cosmetic products under the brand Blue Heaven.
- Proper backend integration with login & signup for user authentication.
- Implementing media query for every screen size.
- For best user experience we put navigation bar and search functionality.
- My responsibility was to create - cart section and payment section, for best user experience i used pop-up and window method.
- This was a collaborative project and was completed in 5days with four more team members.
- Tech Stack: HTML, CSS, JAVASCRIPT

KIMAYA CLONE

- Kimaya is a online website thats offers to purchase fresh Indian & exotic fruits. It is hassle free online fruit ordering platform in Mumbai and Delhi, Kimaye is a promise of consistently delivering the safest and superior quality fruits.
- Proper backend integration with login & signup for user authentication.
- Implementing media query for every screen size.
- For best user experience, used sorting and searching functionality.
- My responsibility was to create Product page and Cart page.
- A Collaborative project led by me and developed in 5 days with 4 more team members.

DIY VANTILATOR USING ARDUINO WITH OXYGEN SENSING FOR COVID PANDEMIC

- Our system makes use of blood oxygen sensor along with sensitive pressure sensor to monitor the necessary vitals of the patient and display on a mini screen.
- We design is to help people during Covid pandemic.
- Minimalistic Emergency ventilator with fine control over BPM, tidal volume and flow rate, with a digital interface.
- Keywords: Cost Effective, Easily Transportable.
- It is very cheap and affordable.

DECLARATION

To put all my efforts and knowledge to ensure best output and to make the Organisation to reach at great Position, I work with.
